Isuzu NextGen Plus 10W-40 Engine Oil adheres to the latest E8/E11 ACEA specification and approval process. Using a carefully chosen base stock formulation and premium additives that meet the demands of Euro 5 & 6 engine requirements, it has been engineered to reduce oxidation and assist with piston cleanliness, decreasing soot and carbon build-up. Recommended for use in Isuzu Trucks and has wider appeal across a range of other commercial vehicles including those with Exhaust Gas Recirculation (EGR), Diesel Oxidation Catalyst (DOC) systems and Diesel Particulate Filter (DPF) exhaust after-treatment systems, making it a staple for any automotive workshop.
